Appendix 3 Flowchart: Managing low level concerns about staff conduct

1 Introduction

- 1.1 Lord Lawson of Beamish Academy is committed to creating and embedding a culture of openness, trust and transparency to ensure **all** concerns about adults can be shared responsibly, with the right person, and recorded and dealt with appropriately. It is extremely important that any allegations made or concerns raised in relation to teachers or any other member of staff, (including supply staff, volunteers and contractors) is dealt with thoroughly and efficiently, maintaining the highest level of protection for the child whilst also giving support to the person who is the subject of the allegation.
- 1.2 This policy is in line with statutory guidance set out within Keeping Children Safe in Education September 2022 (KCSIE 2022) and should be used in respect of all cases where an individual working in a school (including supply staff, volunteers and contractors) is subject to an allegation or has a concern raised in relation to them.
- 1.3 It is designed to ensure that all staff, children and parents or carers are aware of the procedure for the investigation of either an allegation made, or concerns raised, in order that all complaints are dealt with consistently, and as efficiently as possible.
- 1.4 For the purposes of KCSIE 2022 and this policy, 'children' includes everyone under the age of 18, regardless of their location i.e., both inside and outside of the school.

2 Purpose

- 2.1 The procedure for dealing with concerns raised in relation to staff depends on the situation and circumstances surrounding the allegation/concern raised. This policy focuses on:

Allegations/concerns that do not initially meet the harm threshold – referred to for the purposes of this guidance as 'low-level concern'.
- 2.2 It is **not necessary** for staff to be able to determine in each case whether their concern is a low-level concern, if it meets the threshold for a referral, or if it meets the criteria for either. Where a member of staff has **any** concern, it should be shared in line with this policy, and that determination should be made by the relevant person as set out in paragraph 4.2 of this policy.
- 2.3 It is important to recognise that, in practice, the words 'allegation' and 'concern' can be and are used interchangeably by different people. The crucial point is that the conduct is reported. If the conduct does not meet the threshold, it should be treated as a low-level concern and this policy should be followed.
- 2.4 An allegation against a member of staff may arise from a number of sources (e.g. a report from a child, a concern raised by another member of staff in the school or a member of the community, or a complaint by a parent). It may also arise in the context of the member of staff and their life outside work or at home.
- 2.5 Where a member of staff has **any** concern about an adult, they should act on it immediately and it is a fundamental principle of this policy that no employee shall be

treated any less favourably or suffer any detriment in their employment as a result of sharing information or reporting a concern under this policy.

2.6 This policy must be followed when dealing with concerns raised. This policy will be used alongside other relevant policies adopted by the school such as (but not limited to) the Complaints Policy, Code of Conduct, Safeguarding and Child Protection Policy and Behaviour Policy.

2.7 This policy should also be read alongside:

- Local Authority policy
- Local Safeguarding Children Partnership (LSCP) procedures
- Statutory guidance: Working Together to Safeguard Children
- Statutory guidance: Keeping Children Safe in Education (KCSIE)
- Non-statutory guidance: Guidance for safer working practice for those working with children and young people in education settings
- Departmental advice: What to do if you are worried a child is being abused – Advice for Practitioners

2.8 Employees can request a copy of any additional policies referred to within this policy from their line manager or access from the academy website.

3 Data Protection

3.1 When managing a concern against a member of staff or a volunteer (the data subject) the academy will process personal data in accordance with its data protection policy and relevant data protection legislation. Data collected from the point at which the allegation is received is held securely and accessed by and disclosed to individuals only for the purposes of managing the case.

3.2 Data protection principles are set out in Keeping Children Safe in Education 2022, paragraphs 119 and 120:

119. Governing bodies and proprietors should ensure relevant staff have due regard to the relevant data protection principles, which allow them to share (and withhold) personal information, as provided for in the Data Protection Act 2018 and the UK GDPR.

This includes:

- *being confident of the processing conditions which allow them to store and share information for safeguarding purposes, including information, which is sensitive and personal, and should be treated as 'special category personal data'*
- *understanding that 'safeguarding of children and individuals at risk' is a processing condition that allows practitioners to share special category personal data. This includes allowing practitioners to share information without consent where there is good reason to do so, and that the sharing of information will enhance the safeguarding of a child in a timely manner. It would be legitimate to share information without consent where: it is not*

possible to gain consent; it cannot be reasonably expected that a practitioner gains consent; and, if to gain consent would place a child at risk, and

- *for schools, not providing pupils' personal data where the serious harm test under the legislation is met. ³⁴ For example, in a situation where a child is in a refuge or another form of emergency accommodation, and the serious harm test is met, they must withhold providing the data in compliance with the schools' obligations under the Data Protection Act 2018 and the UK GDPR. Where in doubt schools should seek independent legal advice.*

120. The data Protection Act 2018 and UK GDPR do not prevent the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to safeguard and promote the welfare and protect the safety of children.

4 Staff Reporting a Concern

4.1 Because this is a statutory duty, it is a requirement that all members of staff in the academy, where they have safeguarding concerns, no matter how small, will report them in accordance with this policy.

4.2 If staff have a safeguarding concern, or they receive an allegation about another person working in the academy (including supply staff, volunteers, and contracted staff) posing a risk of harm to children, then it must be referred to:

- The Principal or the Designated Safeguarding Lead
- Where there are allegations/concerns about the Principal this must be referred to either the:
 - Chair of Governors
 - Designated Safeguarding Lead (DSL)
 - Local Authority Designated Officer (LADO) or
 - NSPCC Whistleblowing helpline

4.3 Staff need to understand, when sharing a safeguarding concern, that the person who is the subject of that concern will be spoken to in order to gain their account as part of any investigation and to make appropriate records which may then need to be referred to in any subsequent disciplinary proceedings.

Staff who wish to remain anonymous

4.4 If the staff member who raises the concern does not wish to be named, then the school will respect that person's wishes as far as possible.

4.5 However, there may be circumstances where the staff member will need to be named (for example, where it is necessary in order to carry out a fair disciplinary process) and, for this reason, anonymity can never be promised to staff who share low-level concerns. In circumstances where it becomes necessary to identify an individual this should be discussed with the employee and explained to them as early

as possible. Where possible, the academy will try to encourage staff to consent to be named, as this will help to create a culture of openness and transparency.

Initial action by person receiving or identifying an allegation/concern

- 4.6 The person to whom an allegation is first reported should treat the matter seriously and keep an open mind.

They should not:

- Investigate or ask leading questions if seeking clarification.
- Make assumptions or offer alternative explanations.
- Promise confidentiality but should instead give assurance that the information will only be shared on a 'need to know' basis.

They should:

- Make a written record of the information (where possible in the child's/adult's own words), including the time, date and place of incident/s, persons present and what was said (see Appendix 1)
- Sign and date the written record
- Immediately report the matter in line with this policy.

- 4.7 In some cases, staff may have concerns about someone closely associated with a member of staff (e.g., partner, member of the family or other household member) who may present a risk of harm to children for whom that individual is responsible. In these circumstances, such concerns should be reported in accordance with this policy.

- 4.8 There may be occasions where a member of staff feels it is necessary to self-refer, where, for example, they have found themselves in a situation which could be misinterpreted, might appear compromising to others, and/or on reflection they believe they have behaved in such a way that they consider falls below the expected professional standards. There may also be situations where a member of staff feels it necessary to voluntarily share specific information for the purpose of transparency and openness. In these circumstances, such concerns should be reported in accordance with this policy.

- 4.9 It is recognised that staff who are concerned about the conduct of a colleague towards a child are undoubtedly placed in a very difficult situation. They may worry that they have misunderstood the situation. All staff must remember that the welfare of children is paramount and must report their concerns immediately. Support to those who are anxious about sharing information should be considered where appropriate, including offering assurance that any detrimental behaviour because of information being disclosed will not be tolerated.

Supply Teachers and all contracted staff

- 4.10 In some circumstances it may be necessary to consider an allegation against an individual not directly employed by the academy, where the academy's policies and procedures do not fully apply; for example, supply teachers or contracted staff provided by an employment agency or business.

- 4.11 However, in accordance with KCSIE 2022, the academy will ensure allegations/concerns are dealt with properly and **under no circumstance** will a

decision be made to cease using the contracted staff due to safeguarding concerns, without finding out the facts and liaising with the LADO to determine a suitable outcome. Where an allegation is made against contracted staff, the DSL will immediately contact both the LADO and the agency/business concerned. The academy will continue to support any investigation that is required.

- 4.12 It is important that any concerns raised about agency/contracted staff are shared with their employer so that any potential patterns of inappropriate conduct can be identified.
- 4.13 For supply staff, it may be necessary to discuss with the supply agency (or agencies), whether it is appropriate to suspend the supply teacher, or redeploy them to another part of the academy, whilst an investigation is carried out.
- 4.14 Whilst agencies will need to be fully involved and co-operate with any enquiries from the LADO, police and/or children's social care, the academy may need to take the lead on an investigation. This is due to the fact that agencies will not have direct access to children or other academy staff, and may therefore find it difficult to collate evidence as part of an investigation. The academy may also be required to liaise with the LADO in relation to the referral process.

5 Timescales

- 5.1 It is important that allegations/concerns are shared in line with this policy as soon as reasonably possible, and within 24 hours of becoming aware of it (where the concern relates to a particular incident) – although it is never too late to share a concern where these timescales have not been met for any reason.
- 5.2 It is imperative that, once shared, allegations against staff are dealt with as quickly and efficiently as possible to:
- Minimise the risk to the child;
 - Minimise the impact on the child's academic progress;
 - Ensure a fair and thorough investigation for all parties.
- 5.3 To enable this to happen, all staff, parents, and children should be aware of the procedures set out in this policy.
- 5.4 Whilst KCSIE 2022 provides target timescales, the time taken to investigate and resolve individual cases depends on a variety of factors including the nature, seriousness and complexity of the concern/allegation. The academy will endeavour to follow the timescales set out in the guidance for such investigations, as long as it is consistent with a fair and thorough investigation. However, it is acknowledged that allegations of a serious and complex nature are unlikely to be resolved quickly.
- 5.5 Should it be considered necessary that an allegation requires immediate attention, but is received outside normal school hours, the individual receiving the matter should consult the children's social care emergency duty team or local police and inform the LADO as soon as possible.

6 Initial considerations

- 6.1 Once a concern has been raised with the Principal or Designated Safeguarding Lead, the procedures for dealing with concerns/allegations will be applied with common sense and judgement. Those allegations which are determined not to meet the harm threshold initially should be considered as a 'low level concern' and this policy should be followed.
- 6.2 There may be circumstances where a concern is initially considered not to meet the harm threshold but after further investigation may then be considered either to meet the threshold or have the potential to meet the threshold. In these circumstances, or if in any doubt, advice from the LADO and HR should be taken and at any point during an investigation the process followed can be enhanced and the relevant policy dealing with allegations that meet the harm threshold should be followed.
- 6.3 Where it is uncertain whether an allegation meets the criteria for a referral (i.e. meets the harm threshold) the matter will be discussed first with the LADO.
- 6.4 For the purposes of both KCSIE 2022 and this policy, the Principal/Designated Safeguarding Lead, or Chair of Governors (where the Principal is the subject of an allegation), are referred to as the 'Case Manager'.

7 Allegations/concerns that do not meet the harm threshold: 'low level concerns'

- 7.1 Where a concern is raised, or an allegation has been made, but it does not meet the harm threshold set out in paragraph 356 of KCSIE 2022, it will be dealt with as a low-level concern as set out in this policy.

This policy follows the advice and guidance set out in KCSIE 2022, Section Two: Concerns that do not meet the harm threshold, paragraphs 423-445.

It is important to understand that a concern may arise in several ways and from a number of sources. For example: suspicion; complaint; or disclosure made by a child, parent or other adult within or outside of the school; or as a result of vetting checks undertaken.

Information sharing and the appropriate recording and handling of concerns raised is important to ensure potential patterns of concerning behaviour can be identified as soon as possible, and appropriate action taken swiftly in order to safeguard children.

7.2 What is a low-level concern?

The term 'low-level' concern does not mean that it is insignificant: it means that the conduct towards a child does not meet the threshold set out in paragraph 356 of KCSIE 2022. This procedure enables staff to share any concerns – no matter how small – about their own or another member of staff's behaviour with the appropriate safeguarding leads in school.

Extract from Keeping Children Safe in Education 2022, paragraph 426:

426. The term 'low-level' concern does not mean that it is insignificant. A low-level concern is any concern - no matter how small, and even if no more than causing a sense of unease or a 'nagging doubt' – that an adult working in or on behalf of the school or college may have acted in a way that:

- *is inconsistent with the staff code of conduct, including inappropriate conduct outside of work and*
- *does not meet the harm threshold or is otherwise not serious enough to consider a referral to the LADO.*

7.3 KCSIE provides examples of such behaviour, which could include, but are not limited to:

- Being over friendly with children,
- Having favourites,
- Taking photographs of children on their mobile phone,
- Engaging with a child on a one-to-one basis in a secluded area or behind a closed door,
- Using inappropriate sexualised, intimidating or offensive language towards or in front of a child.

8 Sharing a low-level concern

8.1 It is **not necessary** for staff to be able to determine in each case whether their concern is a low-level concern, if it meets the threshold for a referral or if it meets the criteria for either. All concerns, no matter how small, should be reported in line with Section 4 of this policy. The determination as to how the concern raised will be dealt with will be made by the Case Manager.

8.2 Where an allegation is received by a member of staff other than the person as set out in paragraph 4.2, they should immediately report the allegation in line with Section 4 of this policy.

9 Responding to a low-level concern

Initial action by the Case Manager

9.1 On first becoming aware of a concern being raised the Case Manager should:

- Obtain written details (signed and dated by the person receiving)
- Record any information about times, dates and location of incidents and names of any potential witnesses; and
- Record discussions about the child and/or member of staff, any decisions made, and the reasons for those decisions.

9.2 Once this information is available, the Case Manager should consider if it is necessary to discuss the information with the LADO. It may be the case, at this stage, that the matter is not serious enough to consider a referral to the LADO but

may merit consulting with and seeking advice from the LADO in relation to appropriate next steps, and on a no-names basis if necessary.

9.3 Following a discussion with the LADO or where it has been deemed that a discussion with the LADO is not necessary at this stage, the Case Manager will then, (so long as the LADO/other relevant external agencies have not advised not to do so);

- Speak to the person who raised the concern (unless it has been raised anonymously)
- Speak to any potential witnesses
- Speak to the individual about whom the low-level concern has been raised

Action by the school

9.4 Following an investigation of the concern raised, the Case Manager should then review the information and determine whether the behaviour;

- (i) Is entirely consistent with the staff code of conduct and the law,
- (ii) Constitutes a low-level concern,
- (iii) Is not serious enough to consider a referral to the LADO – but may merit consulting with and seeking advice from the LADO, and on a no-names basis if necessary,
- (iv) When considered with any other low-level concerns that have previously been raised about the same individual, could now meet the threshold of an allegation and should be referred to the LADO/other relevant external agencies, or
- (v) With the additional information, shows that the concern itself now meets the threshold of an allegation and should be referred to the LADO/other relevant external agencies;

9.5 Consideration should be given to whether there are wider cultural issues within the academy that enabled the behaviour to occur and where appropriate policies could be revised, or extra training delivered to minimise the risk of it happening again.

9.6 It is important that the Case Manager makes appropriate records of;

- All internal conversations – including with the person who initially shared the low-level concern and all those discussions held as part of the investigation into the matter,
- All external conversations – for example, with the LADO/other external agencies;
- Their determination (as above at paragraph 9.4);
- The rationale for their decision;
- Any action taken/recommendations made.

Behaviour that is determined to be entirely consistent with the academy's policies

9.7 The Case Manger will update the individual in question and inform them of the action taken as above.

- 9.8 In addition, the Case Manager will speak to the person who shared the low-level concern in order to provide them with feedback about how and why the behaviour is consistent with the school's policies.
- 9.9 The investigation into the situation may highlight, for example, that the staff code of conduct is not clear, or that training has not been satisfactory, and/or that the low-level concern process is not clear enough. In which case, the Case Manager may feel it necessary to make recommendations for a review of certain policies/training materials.

Behaviour which is determined to constitute a low-level concern

- 9.10 In most cases low-level concerns by their very nature are likely to be minor. Some will not require any further action. However, others may be most appropriately dealt with by means of issuing management guidance and/or training.
- 9.11 In most cases, a low-level concern will simply require a conversation with the individual about whom the concern has been raised. This conversation will be an opportunity to address unprofessional conduct and support the individual to correct it at an early stage.
- 9.12 It is important that such conversations should include being clear with the individual as to why their conduct was deemed to be of a concern, problematic or inappropriate, what change is required in their conduct, enquiring what, if any, support they might require in order to achieve and maintain that, and being clear about the consequences if they fail to reach the required standard or repeat the conduct in question. A record of the discussion should be made (via a letter of management guidance/record of discussion), which the employee should be asked to sign and be provided with a copy. A copy of the record will be held on the employee's personal file.
- 9.13 Where a low-level concern raises issues of more serious misconduct or poor performance the Case Manager may need to refer to the school's disciplinary and/or capability procedure. If the Case Manager considers that the school's disciplinary and/or capability procedure may be triggered, they should refer the matter back to the Principal (or appropriate person) and should seek HR advice in line with that policy.

Behaviours which require further advice from the Local Authority Designated Officer

- 9.14 Where it is deemed that the conduct is not serious enough to consider a referral to the LADO, but may merit consulting with and seeking advice from the LADO, then action should be taken in accordance with the LADO advice.
- 9.15 Where conduct was considered alongside any low-level concerns that have previously been raised about the same individual, which could now meet the threshold of an allegation, or where following an investigation it is determined that the concern itself now meets the threshold of an allegation, it should be referred to the LADO/other relevant external agencies in line with this policy and HR advice should be sought.

10 Recording a low-level concern

- 10.1 All low-level concerns will be recorded in writing. The record will include details of the concern, the context in which the concern arose, and action taken. The name of the individual sharing their concerns will also be noted. If the individual wishes to remain anonymous then that should be respected as far as reasonably possible.
- 10.2 Records relating to low level concerns will be kept confidential, held securely and comply with the Data Protection Act 2018 and the UK General Data Protection Regulation (UK GDPR) (see paragraph 109 of KCSIE 2021 for more information).
- 10.3 Records will be reviewed so that potential patterns of concerning, problematic or inappropriate conduct can be identified. Where a pattern of such conduct is identified, the school will decide on a course of action, either through its disciplinary procedures or where a pattern of behaviour moves from a concern to meeting the harm threshold, in which case it will be referred to the LADO and further advice will be taken.
- 10.4 The record will be retained at least until the accused has reached normal pension age or for a period of 10 years from the date of the allegation/concern if that is longer, at which point the record will be securely destroyed. A form which could be used for the purpose of recording this information is attached as [Appendix 2](#).

11 References

- 11.1 This policy is clear that only substantiated safeguarding allegations will be provided in references. Low level concerns will not be included in references unless they relate to issues which would normally be included in a reference, for example, misconduct or poor performance. A low-level concern which relates exclusively to safeguarding (and not to misconduct or poor performance) should not be referred to in a reference.
- 11.2 However, where a low-level concern (or number of concerns) has met the threshold for referral to the LADO and found to be substantiated, it will be referred to in a reference, provided that the information is factual and does not include opinions.

Appendix 1: Staff conduct cause for concern form

Concern in relation to: (print name of member of staff)

Name of person completing form (print):

Time of concern:

Date of concern:

Place of concern:

Concern:

Detailed Account:

Please bullet point. Do not interpret what is seen or heard; simply record the facts.
After completing the form, pass it immediately to the Principal or, if not available, the
Designated Safeguarding Lead.

Signature:

Date:

Please provide a copy to the Principal or the Designated Safeguarding Lead

Appendix 2 Record of action of low-level concern in relation to staff conduct

Name:			
Job Title:			
School/college:			
Date of incident/concern:			
Initial concern reported to:			
Summary of concern(s):			
<ul style="list-style-type: none"> • Obtain written details, signed and dated by the person receiving (see reporting form) • Record any information about times, dates and location of incidents and names of any potential witnesses; and • Record discussions about the child and/or member of staff.

Managing low level concerns about staff conduct

<p>1a. Concern shared with: Principal Designated Safeguarding Lead (DSL) If the concern is received by another staff member, they should immediately inform Principal or DSL</p>	<p>1b. If the concern is about the Principal, information should be directed to one of:</p> <ul style="list-style-type: none"> ➤ Chair of Governors / Trustees / HR Lead ➤ Local Authority Designated Officer (LADO) ➤ NSPCC Whistleblowing helpline
<p>2. Principal's decision (within 24 hours where possible):</p> <ol style="list-style-type: none"> a. Contact LADO (if harm threshold met) b. No action c. Proceed with school action 	<p>6a. Internal management Principal determines any additional actions: e.g. Revise Code of conduct / policy / provide training</p>
<p>3. Academy Action The Principal defines areas of investigation / interviewees and starts to investigate concern (or appoints a senior leader). This will include:</p> <ul style="list-style-type: none"> • Interviewing and take statements from all parties concerned: person reporting concern, child(ren), other adult(s) including potential witnesses and parents. • Check corroborative evidence. <p>Written details (report) will be presented to Principal. These will include:</p> <ul style="list-style-type: none"> • Times/dates/locations/potential witnesses • Discussion about concerns • Evidence • Decisions made and reasons 	<p>6b. Internal management Principal relays management strategy to individual being investigated. (Principal can refer to previous concerns and determine if new information warrants progression to disciplinary/capability):</p> <ol style="list-style-type: none"> a. Concerns not substantiated – no further action b. Share concerns and changes required (warning / training) c. If issues of poor performance or misconduct evident, Principal may refer to disciplinary /capability procedure d. Offer support (a, b and c) <p>A record of discussion is made (letter of management guidance/record of discussion). Employee receives a signed copy and copy on personal file.</p>
<p>4. Principal reviews report</p>	<p>7. Principal (or appointed senior leader) feed back Designated person speaks with all other parties to inform of conclusion of process and share outcome. Support offered for parties involved.</p>
<p>5. Principal determines outcome:</p> <ul style="list-style-type: none"> • Progress to enhance level as evidence indicates it meets harm threshold and Principal contacts LADO • Consult with LADO for advice (not serious enough for referral) • Manage internally 	<p>8. Principal monitors as required.</p> <p>It is important for Principal to record all internal and external conversations, decisions, rationale, actions and recommendations. (see Appendix 2)</p>

Appendix 3

Managing low-level concerns about staff conduct
