MGL GROUP

Mock Interviews – Year 11

One of our Business Enterprise partners, MGL Group, have been in school this week, interviewing students in year 11. This is a fantastic opportunity for year 11 students to practice and prepare them for the world of work.

MGL are a leading specialist in demolition and construction and have a range of apprenticeship opportunities in construction, demolition, earthworks, property development, reclamation, cable services and office-based staff, including accountancy, HR and trainee buyer.

Students who attend their mock interview are given an MGL booklet with information about how to look for a job, how to write a CV and covering letter, what to wear to an interview, hints and tips for applications, and how to prepare for interviews.

A big thank you to MGL for their time and dedication to our school.

Green Careers Week: 7 to 12 November 2022

Green Careers Week aims to promote any career that helps to protect and restore the planet. Green Careers Week has been launched by [National Careers Week](#), with [STEM Learning](#) and the [UK Space Agency](#) to raise awareness of green careers in every industry.

You can follow [Green Careers Week](#) on Twitter to find out more.

Take part in Green Careers Week

The North East Local Enterprise Partnership (LEP) are supporting schools to raise awareness of the significant role the North East is playing in the global drive to Net Zero and what this means for young people in terms of future job and career opportunities and the pathways into them.

Find out more in the parent's guide to Green Career's Week:
[The Parent's Guide to Green Careers Week 2023 - National Careers Week](#)

FILM RECOMMENDATIONS

These films showcase the remarkable journeys of women in STEM, leaving a lasting legacy for future generations.

Hidden Figures – *Hidden Figures* unveils the extraordinary contributions of three African-American women mathematicians at NASA during the 1960s, breaking barriers in space exploration.

Radioactive - *Radioactive* portrays Marie Curie's pioneering work in radioactivity, highlighting her scientific brilliance and challenges as a female scientist.

Gorillas in the Mist - *Gorillas in the Mist* tells the inspiring story of Dian Fossey's dedication to protecting mountain gorillas in Rwanda, showcasing her pioneering contributions to primatology and conservation.
